

# Packet Dispenser

A range of versatile dispensers that will dispense a wide range of products.

## Features

- Controlled via Hopper Bus from a DMK A47-026 Logic board.
- Mounts in the same footprint as a DMK Hopper Bus Module so it can be fitted with Universal Hoppers etc.
- Can dispense different height and depth packets, easy adjustment when you want to change product.
- Dispenser low sensor.
- Packet-out meter and be connected.
- Two different widths currently available: 95mm & 135mm.
- Can be manufactured to customer specification.
- Suitable products include CD's, DVD's, Condoms, Cigarettes etc.
